

AutoLayout

Definição

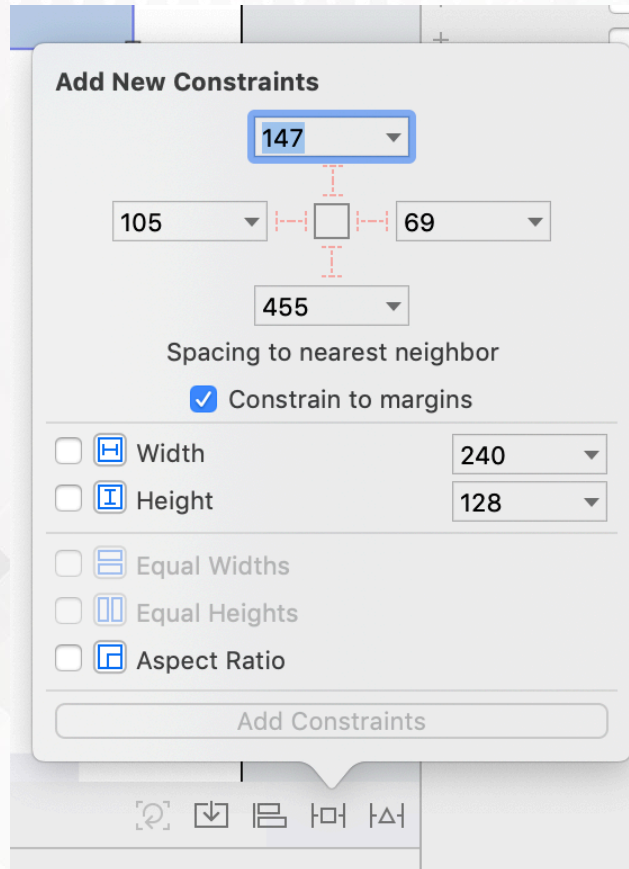

O AutoLayout calcula dinamicamente o tamanho e a posição de todas as views na hierarquia de visualizações, com base nas restrições colocadas nessas visualizações.

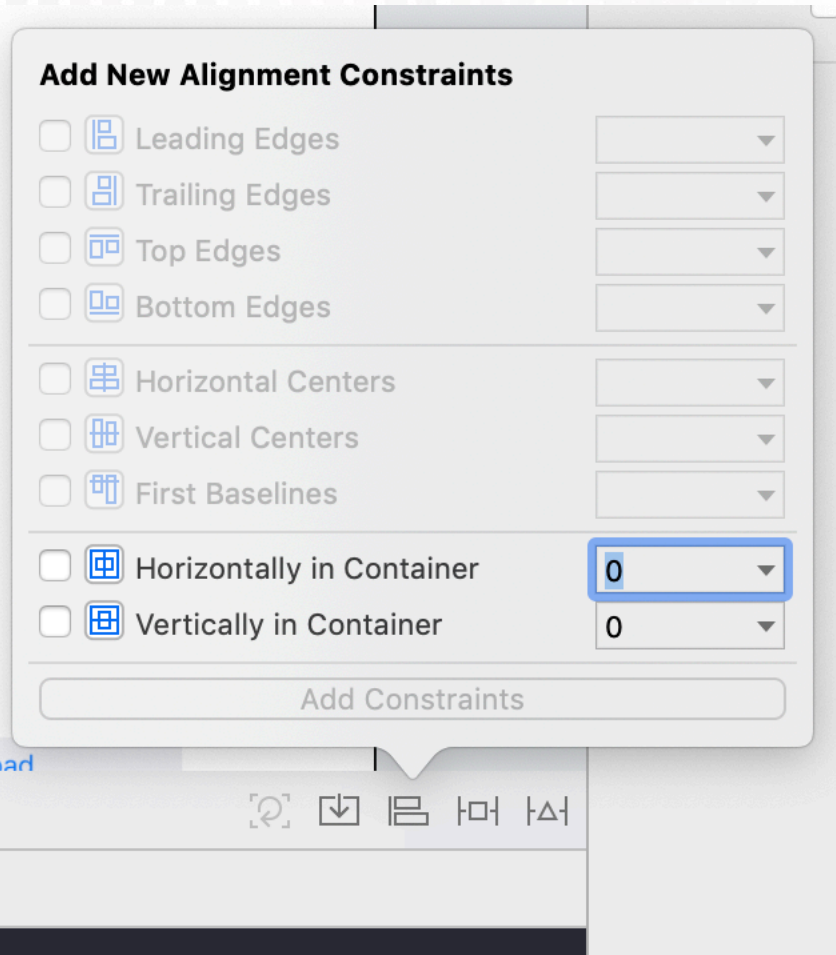

Resolve autolayout issues

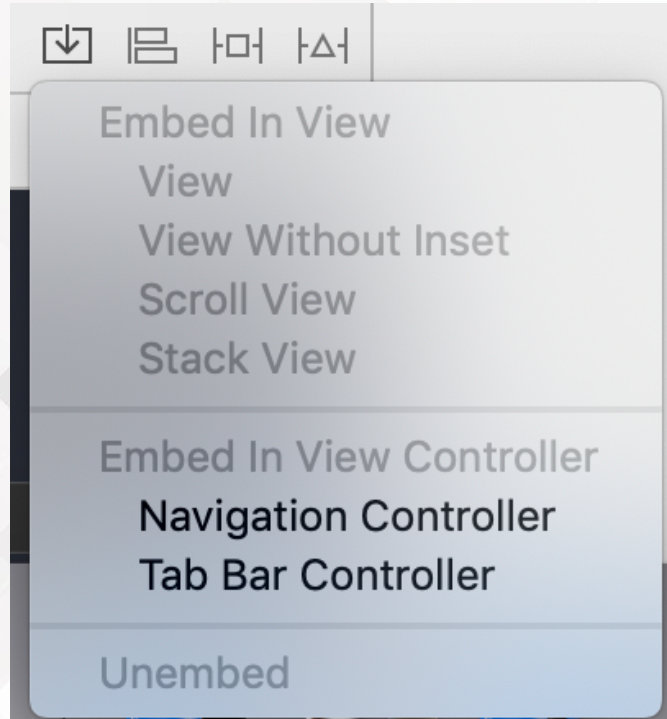

Add new constraints

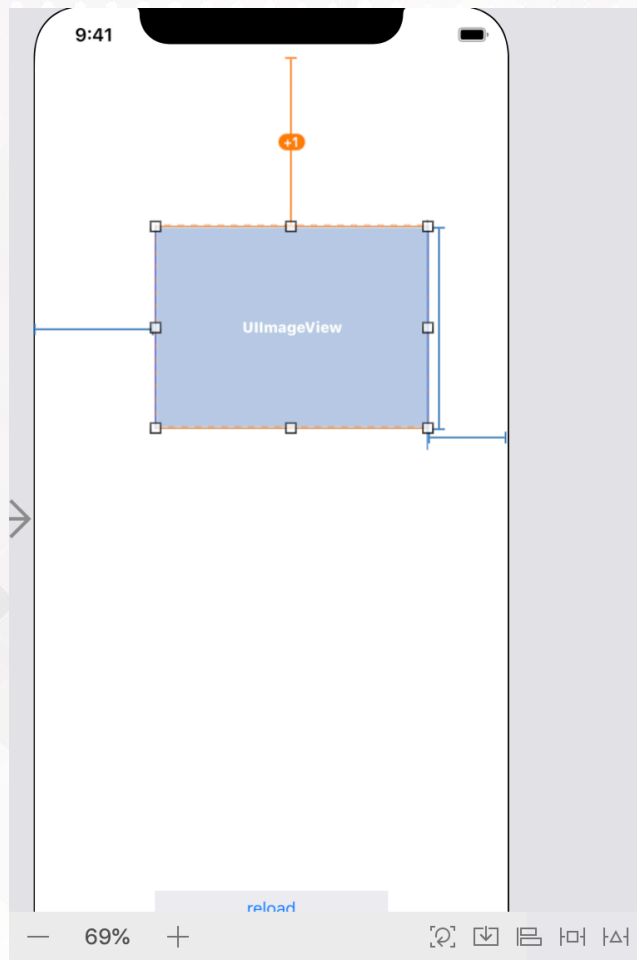

Alling

Embed In View

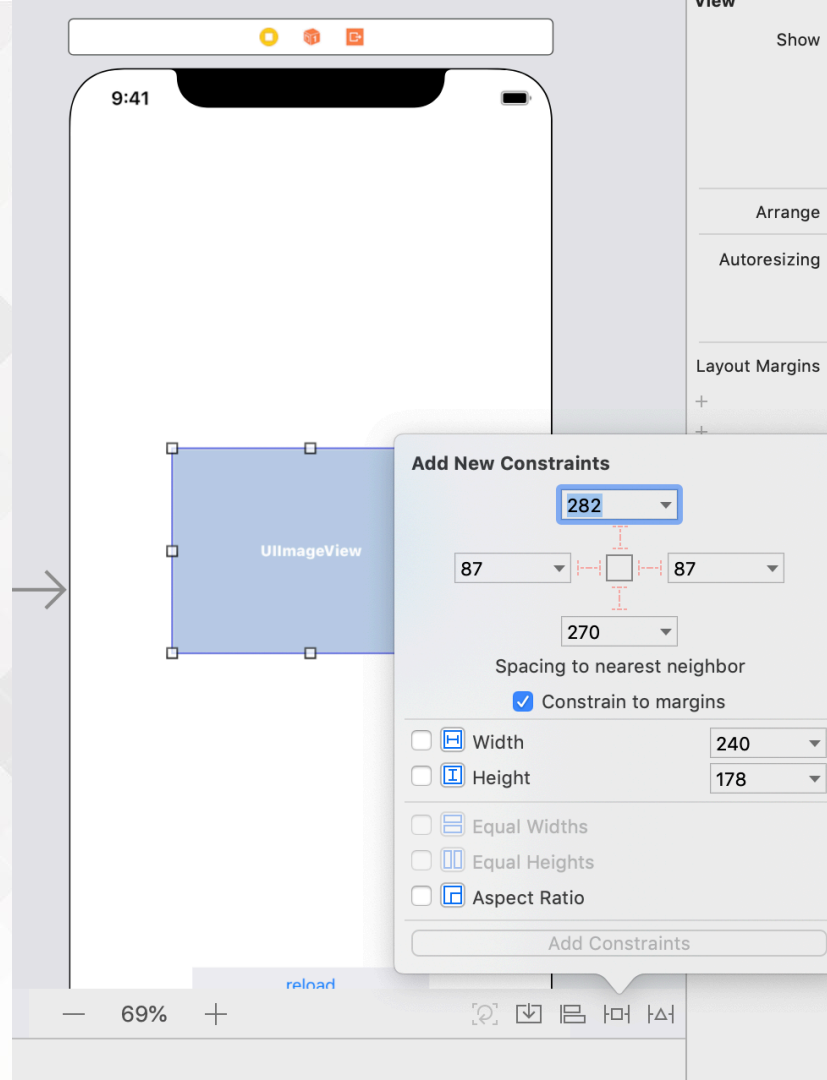

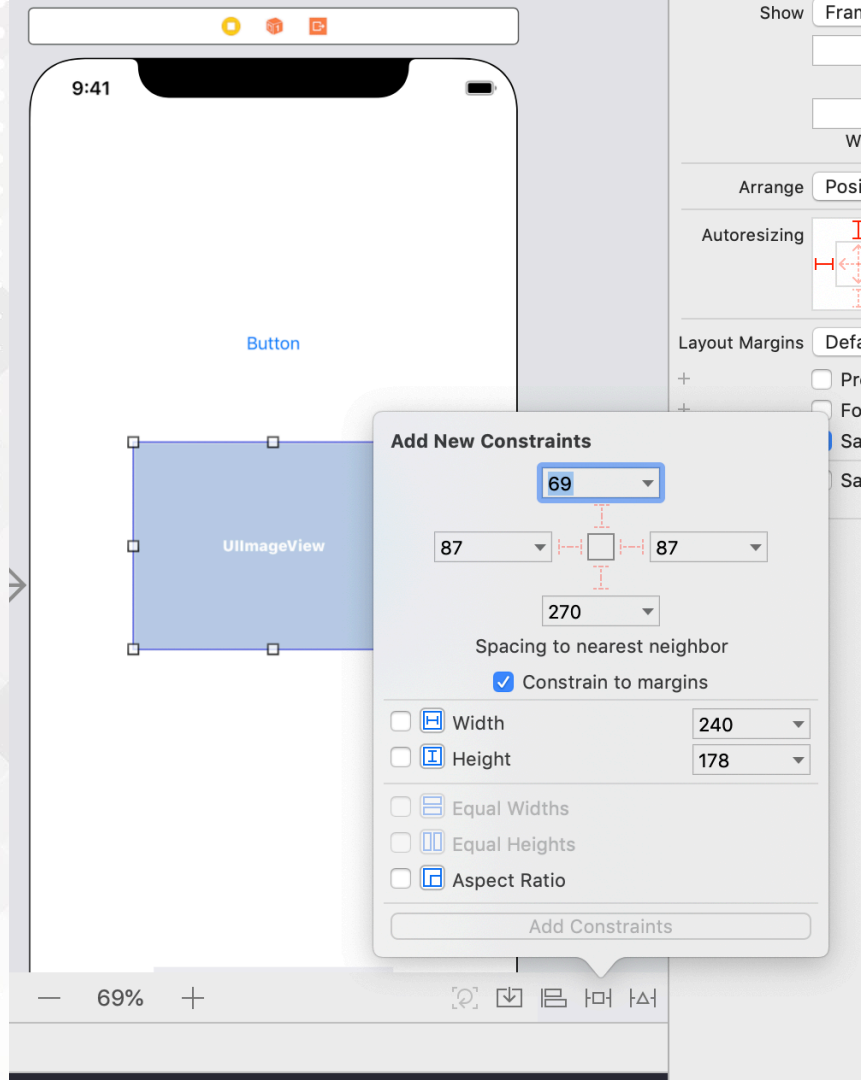

Update Frame

Importante!!!

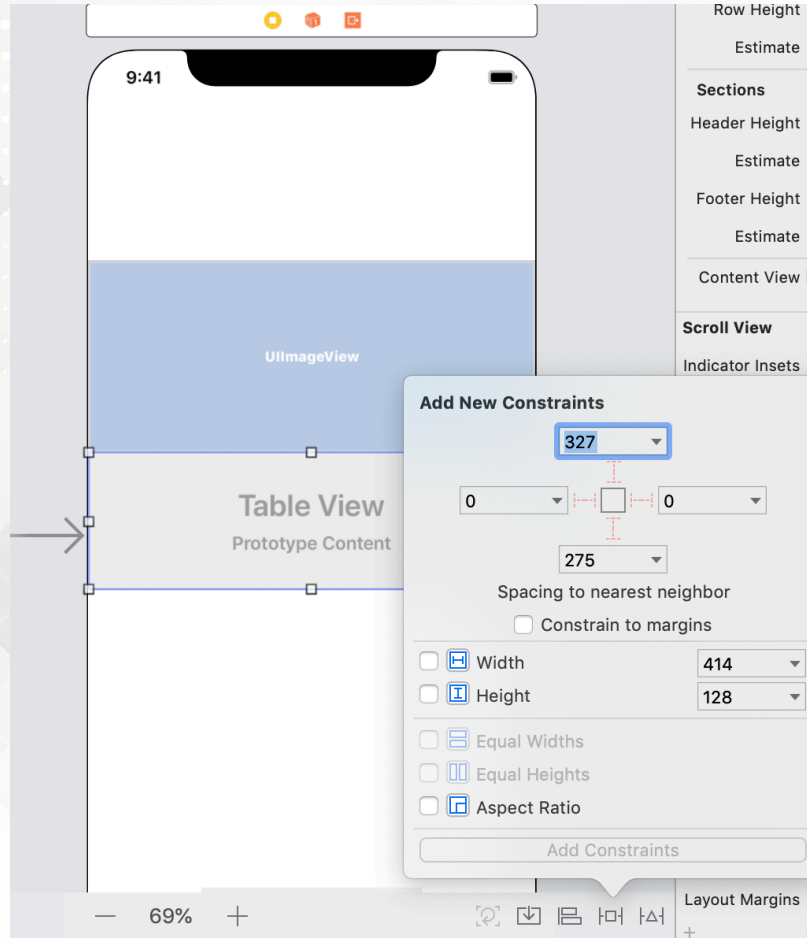

O AutoLayout por padrão sempre irá calcular a distancia para a View mais próxima dela.

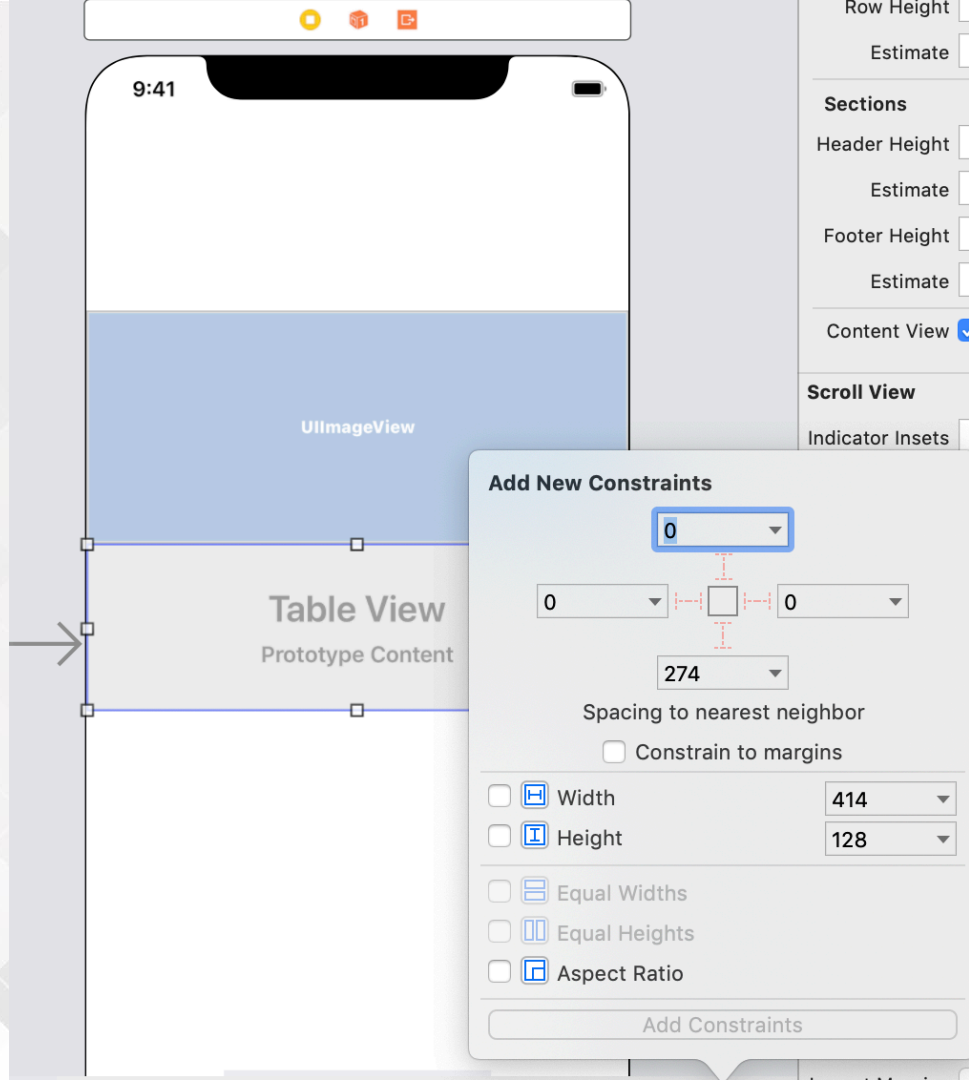

Importante!!!

O AutoLayout por padrão sempre irá calcular a distancia para a View mais próxima dela.

Bora Codar ;)
